

PRODUCT INFORMATION DATA SHEET

LIBWAX-KD

DESCRIPTION : Polyethylene wax

SPECIFICATIONS :

Appearance	White Powder
Acid Value	Nil
Melting Point	100 - 104°C
Melt Viscosity at 140°C	40 CPS

PROPERTIES :

Libwax - KD acts as external lubricant have a low affinity for PVC so it is not homogenized in the melt. It prevents the melt from sticking to machinery. It reduces shear and improves surface quality (gloss).

APPLICATIONS :

External lubricant for Rigid PVC Extrusion

DOSAGE :

0.1 - 0.5 phr for Rigid PVC
