

PRODUCT INFORMATION DATA SHEET

LIBWAX PE-2

| | | |
|-----------------------|---|---|
| DESCRIPTION | : | Low density Polyethylene wax |
| SPECIFICATIONS | : | Appearance : White Beads Melting Point : 100 - 103°C Melt Viscosity : 250 - 300 cps at 140°C |
| PROPERTIES | : | Injection molding demands high flow with improved stability, Libwax PE-2 acts as lubricant during processing and improves flow without affecting HDT. |
| APPLICATIONS | : | CPVC fittings in combination with Libnol G-7412. |
| DOSAGE | : | 2 Phr for CPVC fitting compound. |
