

PRODUCT INFORMATION DATA SHEET

LIBAID DT-5

- DESCRIPTION** : Wetting and Dispersing Additives for Polyolefin based Filled PE/PP Color masterbatches and Compounds.
- SPECIFICATIONS** : Appearance : Powder
Melting Point : 120 - 125°C
- PROPERTIES** : ☉ Higher colour strength because of superior dispersion quality
☉ Optimum filter pressure value (FPV)
☉ Improves surface gloss
☉ Available at excellent CPR (cost and performance ratio)
- APPLICATIONS** : ☉ PE/ PP based Color masterbatches
☉ PE/PP compounds based on talc, calcium carbonate etc.
☉ Fiber masterbatches
- DOSAGE** : Loading from 5 to 15% of total compound weight.
