

## PRODUCT INFORMATION DATA SHEET

# LIBNOL - 400

<b>DESCRIPTION</b>	:	Fatty acid derivative
<b>SPECIFICATIONS</b>	:	Appearance : Amber Colour Liquid
		Acid Value : 6 Max.
		Saponification Value : $80 \pm 2$
		Specific Gravity : 1.01
<b>APPLICATIONS</b>	:	Libnol - 400 is an efficient wetting and dispersing agent to disperse (generally difficult to disperse) pigments like carbon black and specific organic pigments.
<b>DOSAGE</b>	:	The dosage depends on the percentage of pigment loading in a particular master batch.  Suggested level is 0.5 to 2.0 %
<b>GUIDELINES FOR USE</b>	:	Libnol - 400 is suggested to be added to the base resin before addition of other ingredients/pigments to achieve the desired results.
